

Flexi Major 2•3 m D.160/200 mm

The modern Extractor Arm. Flexi Major is a very flexible extractor. The design is compact and smooth. The d.200 mm version is specially made for heavy smoke, dust and gases.

Incredibly easy to move

Modern parallelogram technology is the secret. The arm is incredibly easy to move and retains its position. The extractor hood can be angled more than 110° in all directions.

Halogen Lamp Cartridge

A 20 Watt halogen lamp cartridge can easily be fitted to the hood.

The high quality Extractor

Flexi Major is a high quality extractor arm. It has a long strong steel hood to withstand sparks, chemicals and heat. The flat shape around the inlet of the hood gives a directional suction effect, which optimizes the suction power. All parts are laser cut for maximum precision.

30 Years Experience!

30 years experience of design and manufacturing at your service. The Plymoth products are a combination of well-proven technique and progressive new ideas.

Plymoth is always a step ahead – but not expensive!

	Art. Nr.	Art. Nr. d.160 mm	Art. Nr. d.200 mm
